

Introducing AprivaPay™ .
It turns your cell phone into a sell phone.

AprivaPay™ takes the swipe out of credit card transactions. AprivaPay™ allows your mobile business clients to add credit card transaction capabilities to their cell phones. It is browser-based, requiring no new hardware. Customers can use their existing cell phone (it must have a browser) and service plan. Everywhere your customers travel with their phone becomes a potential point of sale.

Authorized reseller and payment processor

AprivaPay™. No new hardware. No installation. No setup. For the mobile business, it's the new way to pay.

AprivaPay™ is ideal for mobile merchants who want a cost effective way to add credit card transaction capabilities, and integrates seamlessly into their businesses so they can focus on growth.

BROWSER BASED

Merchants perform credit card transactions by accessing our mobile terminal site with their cell phone. On the site, they enter a username and password and input credit card information. Apriva manages and updates the back-end. No software downloading required.

LOW COST/ NO HARDWARE REQUIREMENTS

Merchants do not have to purchase additional credit card terminals or additional hardware, which can be cost-prohibitive to some small businesses. All point-of-sale credit card transactions occur over a cell phone. AprivaPay™ is compatible with virtually any cell phone and cell phone service plan.

EXCEEDING INDUSTRY - LEVEL ENCRYPTION AND SECURITY

Apriva is the leader in credit card transaction technology and provides the most proven and secure platform for wireless information transfer available. Our technology is simply the best in the business.

CUSTOMIZABLE TO YOUR BRAND

Private label option allows you to brand AprivaPay™ as your own product and positions your company as a supplier of cutting edge technology solutions to mobile merchants.

CUSTOMER SERVICE/TECHNICAL SUPPORT

Apriva provides around-the-clock backup and technical support for resellers and end users. We want our customers to have the support they need to be successful in their business.

About Apriva
